## ENTER NATURE

📍 Gūtmaņa cave

The walls of the biggest cave and the oldest tourism object in the Baltics have witnessed many events and bear inscriptions from the 17th century. A man called "gut mann" by the local people used the water for healing, thus the cave was named after him.

📍 Ērgļu cliffs

The 700 m long sandstone cliff is the most monolithic sandstone wall in the Baltics. It is said that the sounds echoing off this cliff sound like organ, therefore these cliffs used to be called Ērģeļu klintis (Organ Cliffs). Walking trails, observation decks and beautiful scenery of the Gauja River valley.

📍 Zvārtes rock

On the left bank of Amata river Zvārtes cliff is 20 m high scenic Devonian sandstone cliff with scarp- 44 m high outcrop. Various cliffs located nearby. Circular trail (1 km) and pick-nick places.

📍 Sietiņiezis

The largest white sandstone outcrop in Latvia has many artistic niches, cavities and caves. It is believed that the rock has gotten its name from the bee caves which look like little holes in its surface, thus, resembling a strainer.

📍 Līgatne cellar caves and cliffs

Līgatne cellar caves and cliffs offer a unique opportunity to put yourself in the shoes of an explorer to find out how more than 300 artificial caves, which surprise with their shape and labyrinths, were created.
